Padang City, West Sumatra, Indonesia

PROFILE

I am an IT professional with a Bachelor's degree in Information Systems and proven experience as a Web Programmer and Analyst Programmer, specializing in web-based information systems development. I have a strong passion and commitment to technology, particularly in application development, data processing, and dashboard/reporting development to support business and operational needs. Experienced in building full-stack systems from frontend to backend, utilizing technologies such as PHP, Laravel, Java Spring Boot, Golang, JavaScript, jQuery, AngularJS, Vue.js, Tailwind CSS, and Bootstrap, alongside MySQL and PostgreSQL databases. I possess strong data analysis skills and am well-versed in development tools like Git, GitHub, GitLab, Postman, and VS Code, as well as analytics/dashboard tools like Power BI and Looker Studio for data visualization, reporting, and dashboard development. I am accustomed to working both independently and collaboratively in a team, possess strong problem-solving abilities, and am dedicated to developing systems that are functional, efficient, user-friendly, and maintainable. I am highly adaptable, eager to learn new technologies, open to feedback, and driven to continuously grow professionally.

EDUCATION

Universitas Putra Indonesia Yptk Padang - Padang, Indonesia

Jun 2019 - Feb 2023

S1 Information Systems, Faculty of Computer Science (IPK: 3.70/4.00)

SMK Negeri 1 Painan - Kabupaten Pesisir Selatan, Indonesia

Jul 2016 - Mei 2019

Computer Network Engineering Department

WORK EXPERIENCE

PT. Jasamedika Saranatama - RSUD Sungai Dareh (Kontrak) - Bandung, Jawa Barat

Apr 2024 – Mar 2026

Analyst Programmer Site

- Managed and ensured the smooth operation of the Hospital Information Management System (SIMRS) at RSUD Sungai Dareh, built on Laravel (backend), Angular & TypeScript (frontend), and PostgreSQL; including user requirements analysis, system maintenance, and troubleshooting.
- Developed and implemented new features within the SIMRS application in accordance with hospital requirements and software development standards.
- Integrated and managed BPJS bridging systems to ensure accurate, real-time synchronization of patient data, medical services, and claims.
- Created and managed operational data reports tailored to the needs of working units and management, leveraging Power BI for data visualization, reporting, and dashboard development.
- Provided hands-on training and technical support to end-users across various departments (registration, polyclinic, pharmacy, cashier) to optimize system utilization.
- Coordinated with core development teams and field technicians for system maintenance, bug reporting, and feature updates.
- Utilized Git for version control and Postman for comprehensive API testing.
- Handled server management and maintenance, including performance monitoring to ensure continuous system stability.
- Troubleshoot network, computer, and printer issues to eliminate downtime and maintain seamless daily operations.
- Installed, configured, and maintained LAN and Wi-Fi networks across the work environment.
- Performed operating system reinstalls and configured supporting software on end-user computers to meet operational standards.

Web Programmer

- Create Projects More than 10++ Websites Using PHP Laravel.
- Served as an Advanced Web Programmer Mentor, providing guidance on advanced development concepts, alongside delivering training on Microsoft Office (Word, Excel, PowerPoint) and Office Administration. Taught foundational Power BI and Looker Studio for data processing, reporting, and dashboard visualization.
- Revise or add required features to the client's website according to request.
- Conduct thorough web testing to ensure optimal functionality and compliance with the specified specifications.

INTERNSHIP EXPERIENCE

Dinas BPVP Padang Kemnaker - Padang, Sumatra Barat**Aug 2023 - Sep 2023**

Web Programmer

- Develop a BPVP Padang Website using PHP Programming Language and MySQL database.
- Perform routine maintenance and repairs on the website, ensuring optimal performance and data security.
- Add necessary features to the website according to BPVP Padang's requests and needs.

Scholarship Information System Class Champion - Universitas Putra Indonesia YPTK Padang, Sumatra Barat Mar 2020 – Feb 2022

- Student Ranked 1st with the Highest GPA Semester 5 of 2021/2022.
- Student Ranked 1st with the Highest GPA Semester 4 of 2021/2022.
- Student Ranked 3rd with the Highest GPA Semester 3 of 2020/2021.
- Student Ranked 1st with the Highest GPA Semester 2 of 2020/2021.
- Student Ranked 3rd with the Highest GPA Semester 1 of 2019/2020.

CERTIFICATE OF EXPERTISE

Certificate

- TOEFL ITP Score Certificate : 593
- Mediatama Web Indonesia x Dinas Kemnaker Web Programming Job Training Certificate.
- Microsoft Word Office Administration Certificate.
- Computer and Network Engineering Expertise Competency Certificate.

LANGUAGE

Bahasa

- Indonesia (Aktif)
- English (Pasif)

SKILL

Software

- Backend : PHP (Native, CodeIgniter, Laravel), Node Js, TypeScript, Java (Spring Boot), Golang (Gin Framework)
- Frontend : Angular JS, Vue JS, Bootstrap, Tailwind CSS, AJAX
- Database : MySQL and PostgreSQL, Query SQL, Database Design, relationships between tables
- API & Authentication : RESTful API, JWT (JSON Web Token), Postman
- Version Control & Collaboration : Git, GitHub, GitLab
- DevOps & Deployment : Docker, cPanel, FTP, VPS Deployment, Shared Hosting
- Supporting Tools : Postman, Visual Studio Code, Power BI dan Looker Studio
- Microsoft Office : Word, Excel, PowerPoint
- Design & UI/UX : CorelDRAW X7, Figma, Canva
- Networking & Infrastructure: Installation, configuration, and troubleshooting of LAN and Wi-Fi networks, including basic cabling and network device management.
- Hardware & IT Support: Computer and printer troubleshooting, operating system reinstallation, and hardware maintenance to ensure seamless daily business operations.
